

My Alphabet (Jr. & Sr. Kindergarten)

There are many creative ways to use 'My Alphabet' in your classroom.

Here are a few ideas:

- Consider teaming up with learning buddies from an older grade to help your students. Ms. Belvedere, one of the creators of Picture It Picture Books, did this with her kids, and they LOVED when their reading buddies came down to help draw and write in their alphabet books. When they were finished, they'd enjoy a fiction book together and point out the same letters they focused on in their alphabet book that day.
- Keep **My Alphabet** books in your writing or literacy centre. Have students work on them once a week.
- Ms. Belvedere's kids were really proud of their books and looked forward to sharing with the rest of the class. Consider doing a sharing circle after completing each page.
